

GHOSTCORE SYSTEMS - BLACKFILE

Designation: SERAPH'S MIRROR

System Classification: Adaptive Radiation Reflection Matrix

Codename: Seraph's Mirror

Operational Role: Directed Energy Defense / Plasma & Beam Reflection

Tactical Use:

- Reflects targeted radiation and beam-based energy weapons
- Adapts to incoming frequency within 4ms harmonic tuning window
- Capable of redirecting plasma, thermal, or laser strikes back at origin

Deployment:

- Layered around ship hull, orbital structures, and key reactor nodes
- Acts as auto-response countermeasure to energy weapons
- Can be paired with WraithSkin to further reduce visibility post-deflection

Symbolism:

The flaming shield of the Seraphim - the angelic mirror that does not protect you... it judges the fire and sends it back.

Outcome:

Fire meets fire.

And the mirror sings.
